

TECHNICAL QUESTIONNAIRE SEALING SYSTEM

1. Application Description

2. Dynamic contact surface

Diameter (mm):	<input type="text"/>
Material:	<input type="text"/>
Surface Quality/Finish (Ra μm):	<input type="text"/>
Rmr	<input type="text"/>
Hardness (HRC):	<input type="text"/>

Temperature range ($^{\circ}\text{C}$):	<input type="text"/>
Stroke frequency:	<input type="text"/>
Stroke length (mm):	<input type="text"/>
Linear speed (m/s):	<input type="text"/>
Rotation speed (rpm) (min-1):	<input type="text"/>
Rotation direction:	<input type="text"/>
Static eccentricity (mm):	<input type="text"/>
Dinamic eccentricity (mm):	<input type="text"/>
Work cycle:	<input type="text"/>
Other:	<input type="text"/>

3. Seal groove

Diameter (mm):	<input type="text"/>
Material:	<input type="text"/>
Surface Quality/Finish (Ra):	<input type="text"/>
Hardness (HRC):	<input type="text"/>

4. Operating Conditions

Fluid:	<input type="text"/>
Minimum pressure (MPa):	<input type="text"/>
Maximum pressure (MPa):	<input type="text"/>
Operating pressure (MPa):	<input type="text"/>

5. Special Requests

e.g. approvals, coefficient friction, life-cycle, etc.:	<input type="text"/>
---	----------------------

Customer

First and last name:	<input type="text"/>
Company:	<input type="text"/>
Address:	<input type="text"/>
Phone n.:	<input type="text"/>
Email:	<input type="text"/>

6. Quantity

Sampling (quantity/pieces):	<input type="text"/>
Monthly (quantity/pieces):	<input type="text"/>
Annual (quantity/pieces):	<input type="text"/>
