

Guidelines for the correct management and disposal of packaging

The Commission Decision 97/129/EC, which by Ministerial Decree of 22 November '22 entered into force on 01/01/2023, establishes an identification system for packaging materials pursuant to European Parliament and Council Directive 94/62/EC on packaging and packaging waste. This Directive aims at harmonising national measures concerning the management of packaging and packaging waste; and improving the quality of the environment by preventing and reducing the impact of packaging and packaging waste on the environment.

As a contribution to the proper disposal of packaging, the new regulations state that all packaging must be labelled so that it is easier for the end consumer to collect and recycle it correctly.

Our Packaging

FOR EACH TYPE, ALWAYS CHECK THE REGULATIONS FOR DISPOSAL PROVISIONS OF YOUR MUNICIPALITY
